Why Fencing?

So you're considering buying a new fence? Allow a licensed fence contractor, Affordable Fence Guys help you make the best fence buying decision for residential and commercial customers in NC and SC.

We'll start by explaining it comes down to 2 considerations: Form and Function. While there usually is a happy marriage between Form (style) and Function (practicality), sometimes it's not and we'll be the first to help you understand why.

For example, you might own a cottage-style home and believe it's only natural to have a picket-style cedar wood fence. However, you have major security concerns in your neighborhood and need an Aluminum or Chain Link fence instead. As you can see in this example, you might need to choose Function (security) over Form (aesthetics).

Warranty

Affordable Fence Guys will warranty any defects in workmanship for 10 Years from the date of installation of your wood fence. The warranty provided is non-transferable and is only valid to the original homeowner at the time of installation.

This wood fence warranty covers installation / workmanship errors only. Fence materials will change appearance, dimension and shape due to the process of aging and exposure to the elements. It is the customer's responsibility to properly care for and maintain their new fence according to industry standards on an as needed basis. We recommend using a Behr sealant available at Home Depot to keep your fence sealed with weather treatment and chemicals to prevent mold growth and greying. Typically this is done by a professional within a few months after installation and then again approximately every 2 years depending on how the weather has been affecting the product. Wood fence materials are subject to warping and cracking and are not covered under this warranty. Defects to the fence and fence hardware caused by these natural changes or lack of proper maintenance to the material are specifically excluded from this warranty. Also excluded are vandalism, climbing, vehicular damage (cars, mowers etc), swinging on or slamming gates, storms (tornadoes, hurricanes, high winds, acid rain and flooding) and normal wear and tear caused by weather and general usage.

All Aluminum and Chain Link Fence Warranties are covered by the manufacturer of the fencing and are typically a Limited Lifetime Warranty. A copy of these warranties will be provided upon request.

Any warranty request must be provided in writing via email with pictures included of the item in question if within warranty to:
